UPDATE: Draft CAFO Rule review process		10/15/2010 09:09 AM	

Document Body

Marcia & Sanjay - I wanted to suggest to you a couple of provisions for inclusion in your draft CAFO Rule -- if you haven't included them already. They are:

- A requirement for all CAFOs to self-disclose to IEPA inventory information. NOTE: this would put you folks ahead of the game in terms of the forthcoming resolution of the 2008 CAFO litigation - where it looks like we will be requiring ALL CAFOs to provide information to states on facility location, number and types of animals, number and types of storage areas,....
- A requirement similar to the one Indiana used where they required everyone to apply for a permit OR certify under penalty of law that they don't require a permit.

Both of these approaches would go a long way in helping you build your inventory in a more efficient manner. Please let us know if you have questions. Thanks

You are not imagining -- I understand that you spoke to Tim on this. That is fine -- we just were offering to make sure there weren't any fatal flaws from our stand point that might cause a problem down the road. Thanks.

Subject: Draft CAFO Rule review process

Sometimes, I think I have done something and it turns out I only INTENDED to do it . To avoid that problem, I want to confirm with you that you are willing for us to send our draft CAFO rule to our stakeholders FIRST and get their comments before sending it to you for your preliminary review. Either I told you or imagined I told you that Sanjay made this commitment to our stakeholders that they would get first crack at it . We would like to get it out to stakeholders tomorrow for a 4-week review and then get it to you by Dec. 1. Can you live with that?
